CAREER OBJECTIVE

Motivated Computer Science graduate with skills in Python, MySQL, PHP, HTML, and CSS, seeking an entry-level software development role to apply programming, database, web development, problem-solving, and teamwork skills.

EDUCATION

BCA – Bachelor of Computer Applications	2023 – 2026
SMT. Gaali Rukminamma Changareddy Govt Commerce & Management College, Bellary	Percentage: 81.37%
Intermediate	2021 – 2023
Govt PU College	Percentage: 73.17%
SSLC	2020– 2021
Govt Junior Technical High School	Percentage: 85.33%

TECHNICAL SKILLS

Programming: Python
Database: MySQL
Web Technologies: HTML, CSS
Backend / Development: PHP
Soft Skills: Communication Skills, Time Management, Teamwork, Quick learner, Willing to learn new technologies

PROJECT

Online E-Voting System
Developed a web-based online voting application using PHP and MySQL to conduct elections digitally. Implemented separate Admin and Voter modules for managing voters, candidates, positions, and election results. Added voter PIN creation and login, candidate viewing, voting for different positions, duplicate-voting prevention, and automated vote counting. The system reduces manual work and supports faster and more accurate election result processing.

CORE COMPETENCIES

Python Programming | MySQL Database Management | PHP | HTML | CSS | Web Application Development | Problem Solving | Teamwork | Communication
